Taiwan Internet Of Things Association Introduction

©2016-2017 Copyright, Taiwan Internet Of Things Alliance (TIOTA).All rights reserved.

The Establishment Process

2009/11 Mr.Bin-Shinag Liang , Chairman of Flowring Technology Corp served as the deputy leader and overseas team leader of the National Standards Development Working Group of the "M2M General Specifications for Industrial Measurement Equipment Communication Interface" program, and conducted bilateral cooperation between the government officials .

2010/02 Start the TIOTA preparation

2011/10 Signed the " Strategic Cooperation Memorandum " with the China electronics Chamber of Commerce「 Internet of things technology products application Specialized Committee」.

2012/04 **TIOTA was established in public and was elected chairman by Flowring Technology Corp. of Chairman Mr. Bin-Shinag, Liang**

Tenet and Task

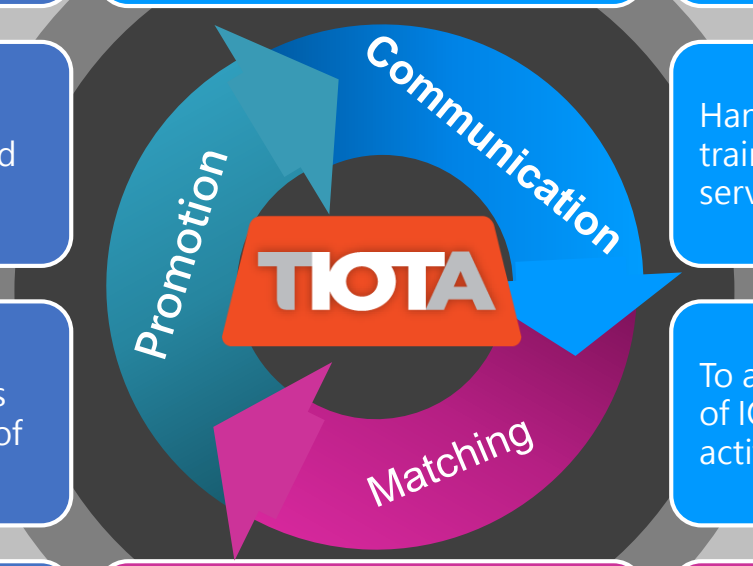
Combined with academia, industry and research institutes, we will jointly develop the Internet of things, and integrate the related resources of Internet of things at home and abroad. Upgrading industrial structure, improving production efficiency and energy utilization efficiency, and promoting cooperation between industry and government and international cooperation.

We should promote the function and knowledge in the field of IOT, and improve the professional standards of Taiwan related fields.

We have held IOT seminar, product technology exchange and academic exchange series.

Participate in relevant international organizations and promote related activities.

Publishing and distributing related publications in the field of IOT.



Handle related education, training and consultation services in the field of IOT.

To assist the government in promoting the related policies and development in the field of IOT.

To assist both sides in the field of IOT training and research activities.

Publishing technology related information in the field of IOT.

To help integrate Taiwan's IOT industry supply chain.

Promote the IOT industry cooperation between the two sides. .
